

GLORY

WS-30

Coin wrapper

A compact coin wrapper, offering a high level of performance and low-maintenance operation. Exceptionally user-friendly and intuitive design.

Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organizations to ensure their cash is managed securely and efficiently while delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

A compact, tabletop device for efficient coin counting and wrapping

Coin wrappers have become essential tools for many organizations and industries that have a requirement to handle large volumes of coin, which needs to be counted and wrapped. Glory's expertise and experience in developing coin processing equipment has enabled us to help organizations worldwide improve their coin handling operations through the use of our state-of-the-art, high quality and durable products.

The Glory WS-30 is a compact tabletop coin counting and wrapping machine, featuring the highest levels of performance, functionality and speed in its class. Providing a consistent set of operations for all coin counting and wrapping procedures, the WS-30 is perfectly suited for locations where a compact wrapper is needed, such as financial institutions, retail stores, casinos, railway stations and hotels.

User-friendly

All coin counting, wrapping and denomination settings can be pre-selected from the user-friendly operation panel. The LED display ensures user information is presented in a clear, easy-to-read format.

Large capacity hopper

The coin hopper holds up to 1,000 coins, which in turn means that larger batches of coin can be fed into the machine, helping drive efficiency and productivity improvements.

Easy maintenance

WS-30 is designed to allow quick and easy access for routine user maintenance. The coin transportation mechanism makes it easy to recover coin jams, in the unlikely event one does occur.

High speed processing

The WS-30 can wrap US coins at up to a maximum of 11 rolls per minute – the fastest processing speed for this class of device, and therefore ensuring higher throughput rates.

Compact design

The WS-30 can be deployed into virtually any location that has a requirement to wrap coin. Its compact design allows it to be used even in the smallest premises. Businesses can now be free from having to outsource coin processing and wrapping.

Rejection capabilities

Foreign objects, such as paperclips and buttons, are automatically off-sorted and sent to a dedicated reject box. This enables the WS-30 to maintain a fast, continuous and accurate counting and wrapping process.

WS-30 Technical Information

Counting speed	Up to 1,800 coins/min (Coin diameter dependent)
Wrapping speed	Up to 11 rolls/min (Coin diameter dependent)
Hopper capacity	1,000 coins Diameter: 23.5 mm (0.92"), thickness: 1.5 mm (0.059")
Operating specifications	Diameter: 0.6 - 1.3 in Thickness: 0.04 - 0.1 in Roll Length: 1.4 - 4.2 in Round only
No. coins per roll	Preset for each denomination
Operating modes	Counting: Continuous counting with user selected batch settings 1 - 99,999 coins. Wrapping: Continuous wrapping with user selected batch settings 1 - 99,999 rolls.
Dimensions (W x H x D)	15.7 in x 19.7 in x 19.7 in
Weight	110.23 lbs
Power supply	AC 100-120V or AC 220-240V, 50/60Hz
Power consumption	170W
