Mach[®] 6 Coin Sorter

Shown with optional printer

Efficient coin processing

The Mach 6 is a mid-range use commercial grade coin sorter and counter that is fast, accurate and versatile.

Glory Global Solutions is a World Expert in cash management, delivering technology and solutions that provide security, productivity and innovation to our customers. These solutions are supported by the technical expertise of GLORY Group of Japan, the pioneer in development and manufacture of money handling machines across the financial, retail, vending machine, amusement and gaming industries for nearly 100 years.

Across the world, Glory Global Solutions is trusted by thousands of organizations to ensure their cash is managed securely and efficiently while delivering the ultimate in productivity. 2,500 professionals, including over 1,300 service and support staff and 350 business partners cover over 128 countries delivering these solutions – wherever money moves.

Glory's Mach® 6 is a medium use commercial grade coin processor that is fast, accurate and versatile.

Optimal speed and accuracy

- The simplicity of the patented Figure 8 technology provides optimal and accurate sorting and counting at 3,000 coins per minute.

Versatile options to meet your needs

- Coins can be sorted into drawers or bags with exact programmable bag stops.

- The optional WAVE™ Coin Authentication Technology checks coins five ways to determine authenticity, and rejects unwanted foreign coins, tokens and slugs with precision.
- For streamlined communications and consolidated reporting, the Mach 6 is equipped with the Management Information Control System™ (MICS). This provides three levels of memory and the ability to manually enter values for other media, like checks and credit cards, into your totals.
- For connectivity, choose from RS232 or USB ports to connect to other counting equipment and cash settlement systems. If loss prevention is a priority, select the optional security stand.
