

**LAUREL LPC-3 bring innovation based on over 60 years of our experience in coin processing.**

**JAPAN Quality**

We are pleased to introduce LPC-3 with the reliability, the durability, and the accuracy at the highest level to fulfill your demand. LPC-3 is a product that has passed through our strict quality inspection to maintain its high quality.

**Increased Productivity**

LPC-3 processing speed increased more than 20% compared LPC-2R providing high productivity for your operations.

**Highly Selected Components for High Durability**

LPC-3 is comprised of highly selected durable parts and can tolerate heavy usage.

**Easy Operation**

The operation of LPC-3 is incredibly easy. It does not take much time to learn how to operate, just set Rolle Paper and select denomination, press Start Key.

**Flexible Batch Settings**

Flexible Batch Setting System is available to set the batch number by using the Batch-Numeric Keys. You can select any batch numbers quickly and freely.

**Easy Maintenance**

LAUREL designed LPC-3 to be accessible more inside the machine to facilitate maintenance. By opening the Front Cover and the Upper Cover, the operator can easily reach to the inner part of the machine to check and to clean inside.

**Environmental Harmony**

LPC-3 has succeeded to cut down on the power consumption nearly 40% to reduce operation cost. We at LAUREL work to develop friendly products for the environment.

**LAUREL Interface Link (Option)**

Optional Connection Kit is available for LPC-3 such as LAUREL Interface Link to connecting Coin Processing System.

**After-Sales Service**

The worldwide network of "LAUREL" authorized distributors assure you of professional support and after-sales service.

**Options**

- Material Detection
- Laurel Interface Link
- Count Chute

**Material Detection (Option)**

Material Detection function is available in LPC-3 to detect the coin with different Material. Counting stops when it detects different material.

**Specifications**

Dimensions	H x W x D	1035 x 400 x 550 mm
Weight		Approx. 110 kg
Wrapping Speeds		Max. 25 Rolls/min.
Counting Speeds		Approx. 2500 coins/min.
Hopper Capacity		Approx. 9000 coins
Clear Box Capacity		Approx. 2000 coins
Reject Box Capacity		Approx. 800 coins
Acceptable Coin Diameter Range		15mm ~ 33mm
Acceptable Coin Thickness Range		1.0mm ~ 3.5mm
