

QuickConnect

Online direct deposit solution for QuickChange™

QuickConnect empowers you to serve cardholders more efficiently by providing a direct deposit solution when using QuickChange. QuickConnect integrates with QuickChange's application software and transfers transactional data from the QuickChange device to the cardholder's account. Cardholders no longer need to redeem their coin receipt at the counter allowing employees to spend more time focusing on other customer facing activities.

QuickConnect provides online connectivity allowing real time access to cardholder coin deposits made at QuickChange devices, thus removing waiting time for onsite intervention to retrieve journal data.

Features

Direct deposit for cardholders

Enhanced screen and receipt customization

Provided on a secured USB flash drive locked in the QuickChange

Benefits

Instant credit to the cardholders account; no redeeming coin receipts at the counter

More transaction details on screens and receipts to better inform users of deposit information

Quicker recovery period in the event of PC failure**

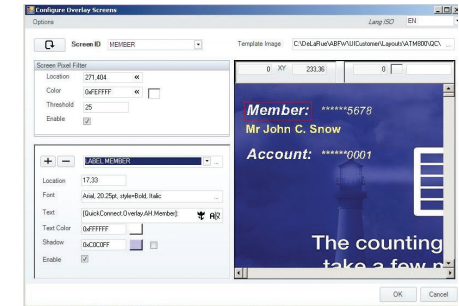

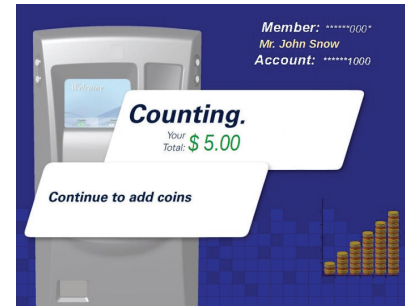

**Note: QuickConnect does not store any sensitive user information.

Minimum requirements

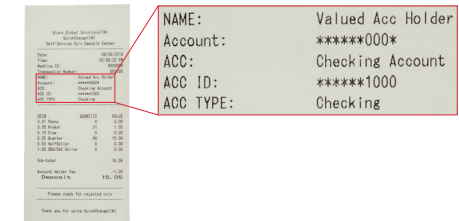

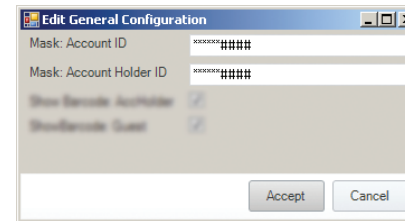

QuickChange Bin or Bag variant featuring card reader, manufactured after September, 2018

Network connectivity, local or Internet

*Contact your local Sales Representative for more information on available core system connections.

Overlay screens can be added on top of QuickChange's default customer screens to provide additional information to the user during the counting process.

Configuration settings allow customization of the information that appears on the device's screen and/or printed on the voucher/receipt.
